

## Consent Form – Community Dental Outreach Program In Partnership with Alpha Dental Clinic

Thursday 21 October 2017

Dear Parents

Alpha Dental Clinic is committed to educating patients on good dental health. The dental screening doctor will be visiting WISS to complete a **free basic dental screening** for children on **Wednesday 11<sup>th</sup> October**.

Each dental screening will be completed by a qualified dental screening doctor from Alpha Dental and will follow international Dental Health control standards.

Please note that this dental screening does not replace a full dental examination in your Dental Clinic. Good dental health, reinforced by a full dental examination, is important for a child's general health. The examination is a non-invasive, painless procedure that all children should undergo on a regular basis.

The dentist from Alpha Dental will advise parents in writing, if they feel any further treatment is required. Parents are then free to choose where to go if their child has any treatment recommended. If you are happy for your child to have the Dental Screening, please sign the consent form below and return to your child's class teacher or Early Years office before **Friday 29<sup>th</sup> September**.

Kind Regards

Fiona Morris  
Early Years Principal
